

CONTENTS

	Pg. No.
1. ACCELERATOR	
1.1 Operational Summary	1
1.2 Maintenance and Development Activities	2
1.3 Ion Source Activity	4
1.4 Beam Pulsing System	5
1.5 Accelerator Mass Spectrometry (AMS)	6
2. ACCELERATOR AUGMENTATION PROGRAMME	
2.1 LINAC10	
2.1.1 Simple Test Cryostat	10
2.1.2 Beam Test Through Linac Cavities	10
2.1.3 Indigenous Fabrication of Superconducting Niobium Resonators	14
2.2 Cryogenics	
2.2.1 Cryogenic Facility	20
2.2.2 Performance Report on cooling of first Linac module with cavities	21
2.2.3 Extension of LN2 transfer line and Rebuncher helium line	22
2.2.4 Cryostats	23
2.2.5 Miscellaneous work	25
2.2.6 A Linux based control and data acquisition for the automation of a surface preparation facility using Ni field point hardware	26
2.3 RF Electronics	28
2.4 Beam Transport System	29
2.4.1 Super conducting Solenoid Magnet power supply and programme testing	29
2.4.2 Super conducting Solenoid Magnet power supply controller	30
2.4.3 16 Bit input gate output register (IGOR)	30
2.4.4 High Current High Stability Power supply (300A/100V, 10 PPM)	30
2.4.5 NIM based 5kV/100ua programmable Ge detector Bias Power Supply	31

2.4.6	Prototype development of air cooled 1 kW (30V/35A, 25ppm) Power Supply	31	
2.4.7	Development of remote and local control interface for \pm 50 kV Wien filter Power Supply	31	
2.5	Low Energy Ion Beam Facility	32	
2.6	High Current Injector	31	
2.6.1	Performance of High Temperature Superconducting Electron Cyclotron Resonance Ion Source Pkdelis	40	
3.	RESEARCH SUPPORT FACILITIES	43	
3.1	High Vacuum Laboratory	43	
3.1.1	Installation Activities	43	
3.1.2	Installation of Phase-II Beamlines	44	
3.1.3	Pelletron Support	44	
3.1.4	Auto silt assembly installation in GPSC and its Linear motion	45	Motoriza-
3.1.5	Beam Line Maintenance	45	
3.2	Maintenance of Magnets and Power Supplies	46	
3.3	Detector Laboratory	47	
3.3.1	Large Area Multi Wire Proportional Counter for HIRA Focal Plane	47	
3.3.2	Large Area Multi Wire Proportional Counter for GPSC	47	
3.4	Target Development Laboratory	47	
3.5	Electronics & RF Lab	48	
3.5.1	Radiation Detection and Pulse Processing System for University Laboratories	48	
3.5.2	General purpose controller with embeded computer	49	
3.5.3	A List processing CAMAC crate controller	49	
3.5.4	Liquid Nitrogen filling system for INGA	49	
3.5.5	CAMAC interface for LINAC restonator controller	49	
3.5.6	PCI Interface for 4-Channels Shaft Encoder	50	
3.5.7	CAMAC crate controller running GNU/Linux	50	
3.5.8	Electronics Activity related to Indian National Gamma Array	51	
3.5.9	Modification of shaper card for INGA	51	

3.5.10	Development of charge sensitive preamplifier (NSCPAC1)	51
3.5.11	Technology transfer of RF Generator	52
3.5.12	A modular VHF Power amplifier	52
3.5.13	Eight Channel Slow Tuner Control Electronics	52
3.5.14	Goniometer – XRR Control Module	53
3.5.15	Phase metr input module for RF phase monitoring	53
3.6	Electrical Group Activities	53
3.6.1	Stabilised Power Arrangement	53
3.6.2	UPS Systems	53
3.6.3	Power Factor Compensation	54
3.6.4	Maintenance of Phase-I & II Electrical Installations	54
3.6.5	Energy Saving	54
3.6.6	Vacuum Circuit Breaker Panel for Sub Station	55
3.6.7	Communication Equipments	55
3.6.8	Elimination of Harmonic Distortion in Clean Power Distribution System of NSC	55
3.6.9	Phase II Part- II Installations	57
3.7	Computer and Communications	57
3.7.1	Augmentation of networks and desktop computing	57
3.7.2	Augmentation of central servers	57
3.7.3	Software augmentation and development	57
3.7.4	Internet services	57
3.8	Air Conditioning, Water System and Cooling Equipments	58
3.9	Mechanical Workshop	59
3.10	Health Physics	60
3.10.1	Radon Monitoring and its applications to earth sciences	60
3.10.2	Heating Tray (Planchet) for the TLD Reader HARSHAW QS3500	62
3.10.3	Thermoluminescence & Photoluminescence Characteristics	63
3.10.4	Thermoluminescence and Photoluminescence Characteristics of nanocrystalline LiNaSO ₄ :Eu phosphor	63
	Effect of Tb ³⁺ Co-doping and particle size on K ₂ Ca ₂ (SO ₄) ₃ :Eu Phosphor	64

Thermoluminescence and Photoluminescence Characteristics of nanocrystalline BaSO ₄ :Dy phosphor	64
Preparation and characterization of nanocrystalline MgB ₄ O ₇ : Dy for Radiation Dosimetry using Thermoluminescence Technique	65
3.11 Civil Works	65
3.12 SF₆ Gas Storage & Gas Handling System, Compressed Air System, Mechanical Pumps and Material Handling Equipments	66
3.13 Data Support Laboratory	68
3.13.1 Isolation of Data Acquisition LAN	68
3.13.2 Development of Low Cost Data Acquisition Systems	68
3.13.3 Servicing and Maintenance	68
3.13.4 Data Support Lab has acquired the following Electronic modules for data acquisition resource pool	68
4. EXPERIMENTAL FACILITIES IN BEAM HALL	70
4.1 General Purpose Scattering Chamber (GPSC)	70
4.1.1 New Developments in the chamber	70
4.1.2 Development of large area MWPC for fission fragment detection	70
4.1.3 Development of detectors and related accessories for fast timing measurements	71
4.1.4 Measurement of Neutron detector efficiency	72
4.1.5 PSD module for neutron-gamma discrimination	73
4.1.6 Experiments conducted in GPSC	74
4.2 Gamma Detector Array (GDA)	75
4.2.1 Large Gamma Detector Array (LGA)	75
4.2.2 Fabrication and Testing of NSC Clover electronics module	76
4.2.3 HIRA-INGA system	78
4.3 Recoil Mass Spectrometers	79
4.3.1 Heavy Ion Reaction Analyser (HIRA)	79
4.3.2 Hybrid Recoil mass Analyser (HYRA)	82
4.4 Materials Science Facility	84
4.4.1 Material Science Beamline for Phase II	85
4.4.2 Irradiation chamber for materials science beamline in beamhall II	85

4.4.3	Swift Heavy Ions in Materials Engineering and Characterization (SHIMEC)	86
4.4.4	Plasma based thin film deposition	89
4.4.5	LAPSDT with new design features	89
4.5	LIBR Beam Line	91
4.5.1	Status of LIBR Beam Line for Beam-Foil Experiments	91
4.5.2	Inclined plate electrostatic charge state analyzer	92
4.6	Radiation Biology Beam Line	94
4.6.1	Status of the Radiation Biology Beam Line	94
4.6.2	Status of the Molecular Radiation Biology Laboratory	94
5.	RESEARCH ACTIVITIES	95
5.1	Nuclear Physics	95
5.1.1	Rotational Structures in ^{123}Cs	95
5.1.2	Magnetic Rotation in ^{137}Pr	97
	Shape effects in ^{79}Rb	100
	Nuclear Spectroscopy of ^{52}Cr	102
	Study of high spin states in sd shell nuclei	104
	Prompt and Delayed Spectroscopy of ^{139}Pr	106
	fp shell proton drip line nuclei at high excitations	107
	Simultaneous measurement of elastic, transfer and fusion cross – sections for the $^7\text{Be} + ^{27}\text{Al}$ system	109
	Study of elastic scattering of $^7\text{Be} + ^9\text{Be}$ system	112
	Fragment mass distribution as a direct probe of quasi-fission reaction in below barrier energies	114
	Study of Incomplete Fusion in $^{16}\text{O} + ^{169}\text{Tm}$ Systems below 7 MeV/nucleon	116
5.2	Swift Heavy Ions in Materials	119
5.2.1	Study of thickness effect on intermixing in W/C multilayer with Swift heavy Ion irradiation	120
5.2.2	Investigation of V/Si mixing induced by Swift Heavy Ions	122
5.2.3	Swift heavy ion induced formation of preferentially oriented $\text{Au}_{0.6}\text{Ge}_{0.4}$ alloy	125
5.2.4	Swift heavy ion induced interface modification in Co/Ge	127

5.2.5	Atomic Transport in Cu/Ge System at Interface by Swift Heavy Ions	129
5.2.6	Swift Heavy Ion Induced Modifications of Si/C ₆₀ Multilayers	131
5.2.7	Phase Transformations in Thin Films of C ₆₀ Irradiated with 100 MeV Au ions	133
5.2.8	Luminescence from Silicon Nanophases Grown in Fused Silica using keV and MeV Ion Beam	135
5.2.9	Swift Heavy Ions induced Modifications in ZnO thin films	137
5.2.10	Electronic conduction in 40 MeV 28Si ⁵⁺ ion irradiated Se-Te-Pb thin films	139
5.2.11	Studies on 150 MeV Ni ¹¹⁺ Ions Irradiated Nanocrystalline Li Ferrite Thin Films	140
5.2.12	80 MeV Silicon Ion Irradiation Effects in GaN & II-VI Compound Semiconductors	141
5.2.13	Effect of 190 MeV Ag ion irradiation on magnetization of NiMn _{0.05} Ti _{0.2} Mg _{0.2} Fe _{1.55} O ₄ ferrite thin film	143
5.2.14	Effect of 50 MeV Li ³⁺ Ion Irradiation on Dielectric Properties of Erbium Orthoferrite Single Crystals	144
5.2.15	Irradiation Effects on Mechanical Behaviour of Pure & Substituted M – type Strontium Hexaferrite and Orthoferrite Single Crystals.	146
5.2.16	Irradiation Effects on Dielectric Behaviour of M – type Strontium Hexaferrite Crystals.	148
5.2.17	Structural and Optical Modifications of LiF Thin Films	150
5.2.18	Photoluminescence Studies in Swift Heavy Ion Induced Mullite	153
5.2.19	Lithium Ion Irradiation Effects in P(VDF-HFP) based Polymer Electrolytes	154
5.2.20	Response Characteristics of OHP-films as Nuclear Track Detectors for Low Energy ¹⁶ O Ions	156
5.2.21	Carbon-ion induced modifications in Poly (ethylene terephthalate): A free volume study	158
5.2.22	Study of asymmetric membranes by gas permeation	160
5.2.23	Energy loss and straggling measurements of light ions in different polymeric absorber foils	162
5.2.24	High Energy Ion-Irradiation Effects on Absorbed Water Relaxations in Kapton-H Polyimide	163
5.2.25	Investigations on the effect of SHI on the optical, electrical and structural properties of plasma polymerised organic thin films	165

5.2.26	Correlation between Ion Track Diameter and Charge State of Incident Ion	167
5.2.27	Heavy Ion RBS with 12 MeV Carbon	169
5.2.28	Heavy ion testing of VLSI devices for Single Event Effects	170
5.3	High LET Radiation Biology	173
5.3.1	Induction of cytogenetic damage and repair in V79 cells by accelerated heavy ion	173
5.3.2	Effects of ${}^7\text{Li}^{+++}$ heavy ion irradiation on hydrogen peroxidase decomposing enzymes in leaves of <i>Brassica juncea</i> .	174
5.4	Atomic Physics	181
5.4.1	Experimental evidence on intrashell transition in He-like Ti	181
5.4.2	Physics with Nascent Atoms: Experiment Evidence of Ternary Recombinations	182
5.4.3	Lifetime of $1s2s2p^4P^0_{5/2}$ in Ti^{19+} by beam-foil and beam-two-foil experiments	185
6.	ACADEMIC ACTIVITIES	187
6.1	Pelletron Beam Utilization By Users	187
6.1.1	Pelletron Beam Time Utilization and Experiments performed (April 2003-March 2004)	187
6.1.2	List of Users Family	188
6.2	M.Sc. Orientation Programme	190
6.3	Library	191
6.4	The Ph.D. Teaching Programme	192
6.5	Academic Activities Held in 2003-2004	193
6.6	Calendar of Events: 2004	194
6.7	List of Seminars conducted in the year 2003-2004	195
6.8	List of Publications (2003-2004)	198
6.9	List of Technical Reports / Technical Memos Submitted for the Year 2003-2004	204
Appendix I - Committees		205

Appendix II - NSC Personnel 212

Appendix III - List of Users 215
